Courier Management System

19BCE243 Yash B. Savani

19BCE282 Yagnik Y Thummar

19BCE298 Maulik K Virpariya

Introduction

We have make courier management system offline. Where consumer can Log in, make courier and can track it also. There is also part where employee have to log in and can see their work and update status of courier. In Addition, we have put one more menu for Admin for maintain and manupalting the whole data base.

Used recourse

We have made an GUI based application with python, easy for operating and used concept of functionality for each event. If any error occurs, then we can easily resolve it.

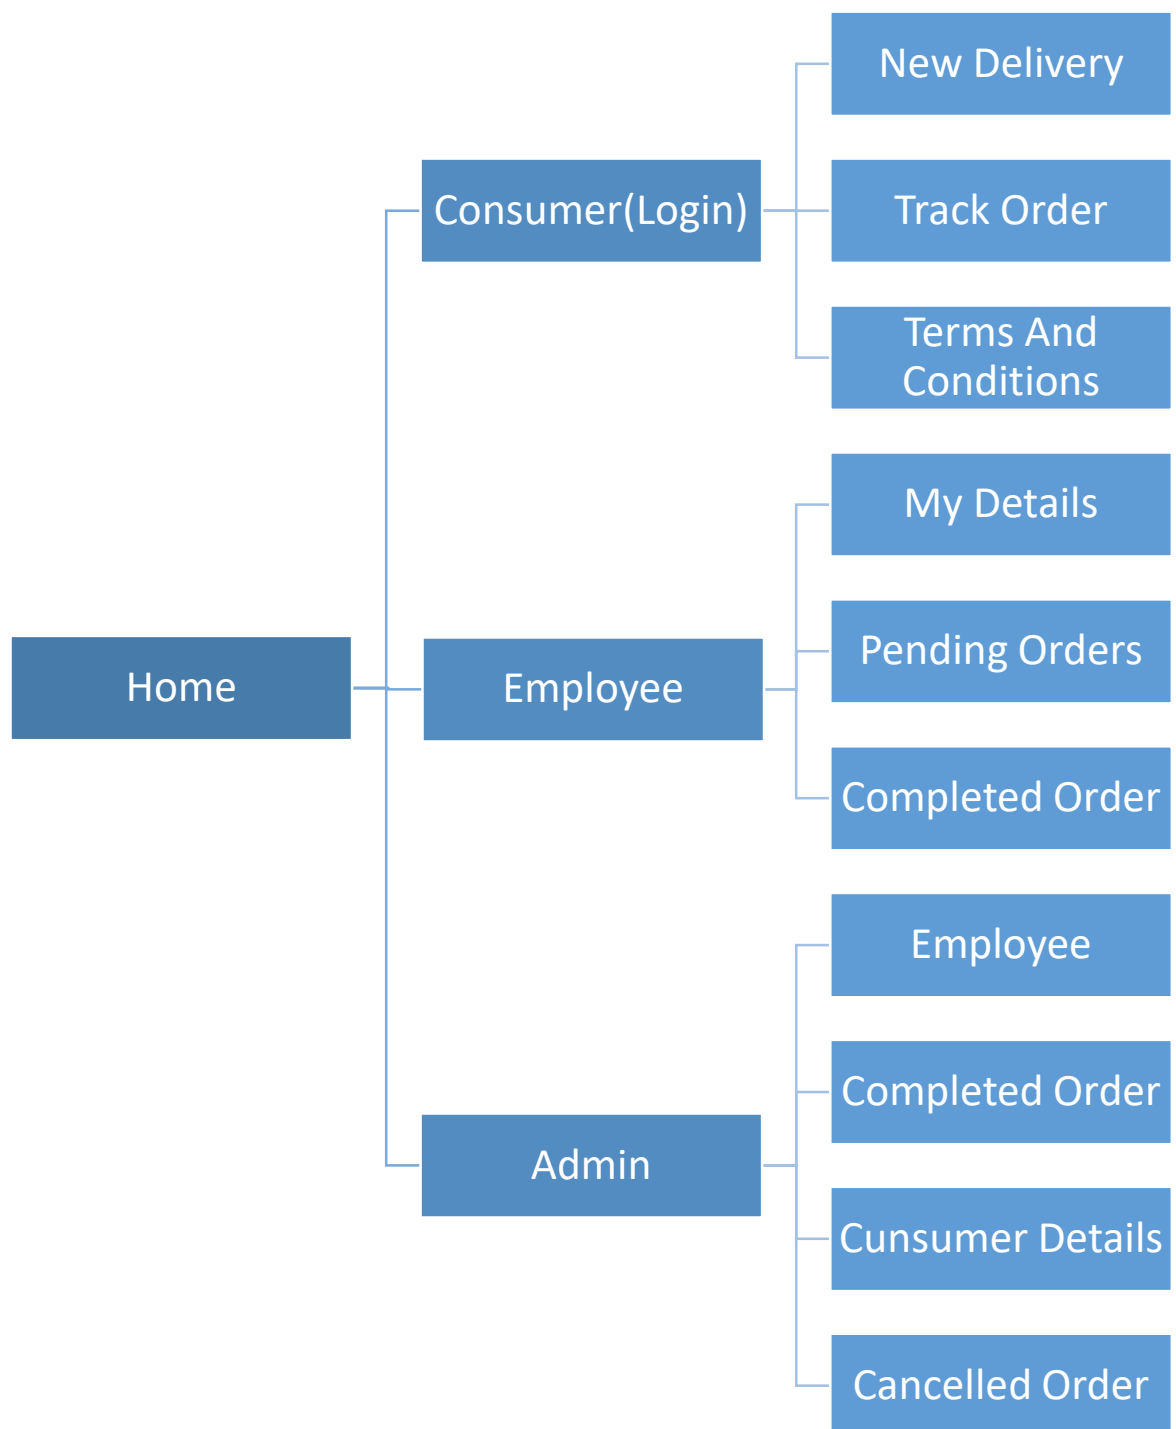

- Requirement
 - Python higher > 3.8 version
 - Tkinter
 - cx_Oracle
 - random
 - PIL (Pillow)

Keep Note That

```
-->import cx_Oracle as oc<--  
con=oc.connect->>('system/mkv@localhost')<<-  
-----/  
cursor=con.cursor()
```

We have used cx_Oracle so You to chage according to yours' oracle user_name and password.

Program Flow

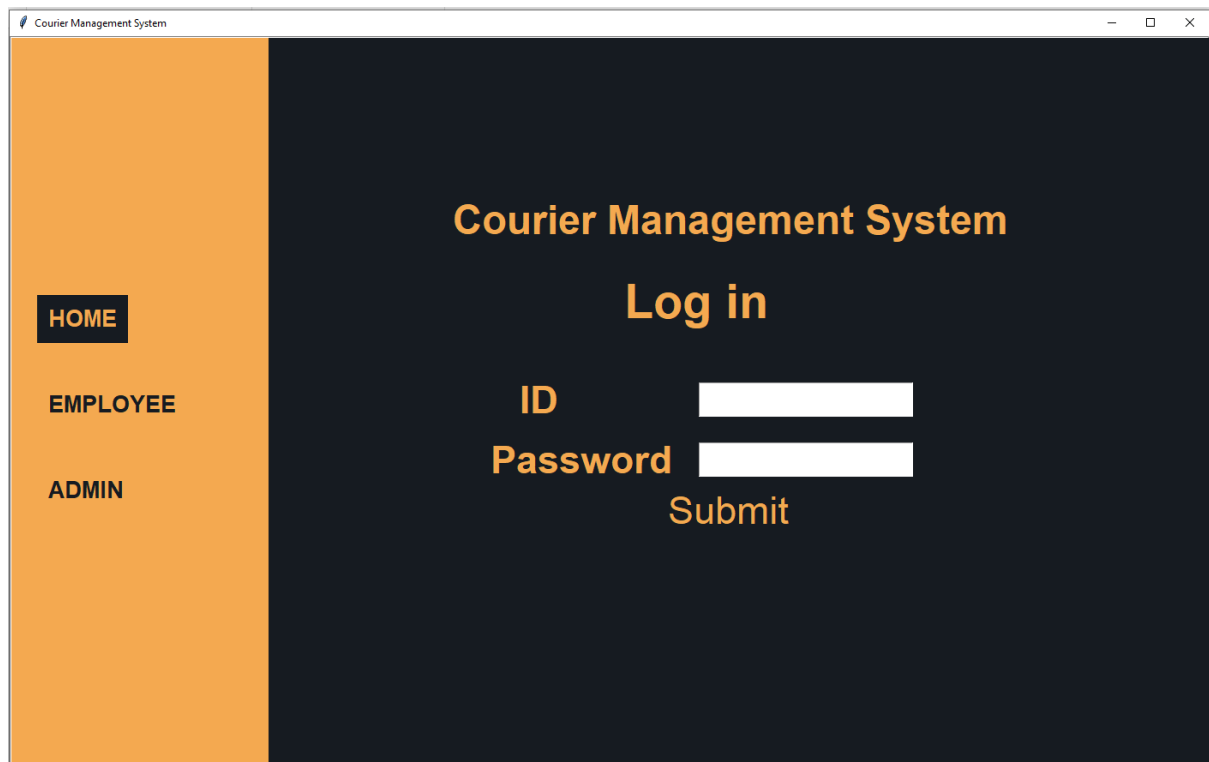

1. Home Menu

Here User have to log in with his\her Id and password.

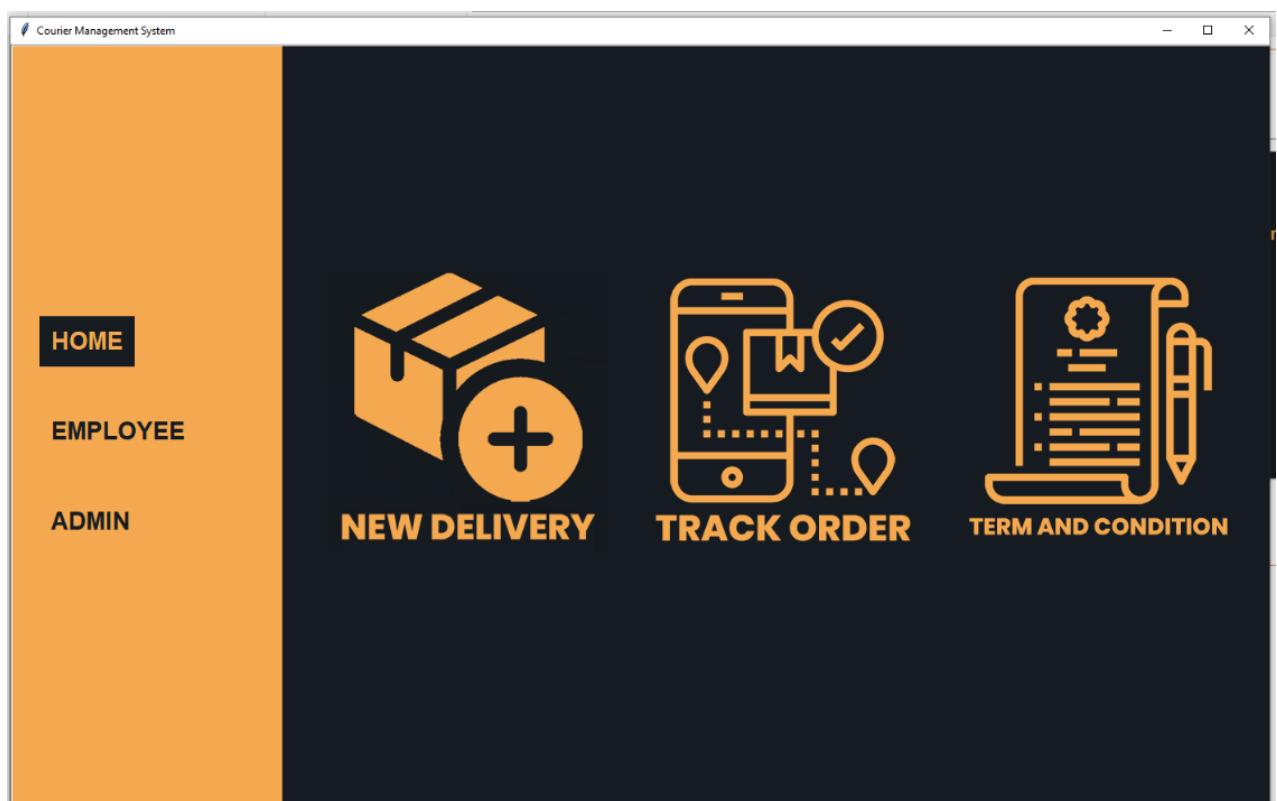

Quarry ::

select password_cus from customer where c_id= Consumer_id

ID : 10001
Password : yag

2. Consumer Menu

3. New Delivery

Here Consumer have to fill form of his/her courier with required data of sender, receiver and properties of courier (Like Height, Weight, etc.).

Empty Form:

Customer_id	<input type="text"/>	Receiver name	<input type="text"/>

Sender Phon No	<input type="text" value="0"/>	Receiver Pincode	<input type="text" value="0"/>
Sender Pincode	<input type="text" value="0"/>		

Product Details

Product Type	<input type="text" value="Like doc, Gift, etc"/>		
Lenght	<input type="text" value="In cm"/>	Date	<input type="text" value="Like DD/MM/YYYY"/>
Width	<input type="text" value="0"/>	Time	<input type="text" value="HH:MM in 24 hour"/>
Height	<input type="text" value="0"/>	price	<input type="text" value="On Weight"/>
Weight	<input type="text" value="In Gram"/>		

Submit

Back

5.Filled Form:

Customer_id	<input type="text" value="10001"/>	Receiver name	<input type="text" value="Maulik"/>
Sender name	<input type="text" value="Yagnik"/>	Receiver Phon No	<input type="text" value="9078099790"/>
Sender Phon No	<input type="text" value="90899098"/>	Receiver Pincode	<input type="text" value="395007"/>
Sender Pincode	<input type="text" value="395006"/>		

Product Details

Product Type	<input type="text" value="Gift"/>		
Lenght	<input type="text" value="15"/>	Date	<input type="text" value="11/05/2021"/>
Width	<input type="text" value="20"/>	Time	<input type="text" value="10:40"/>
Height	<input type="text" value="30"/>	price	<input type="text" value="420.0"/>
Weight	<input type="text" value="1400"/>		

Submit

Back

After Submitting Data One pop will rise for confirming the data.

Your Order Details

Sender name:: Yagnik
Customer id:: 10001
Sender Phone Number:: 9089907890
Sender Pincode:: 395006
Receiver Name:: Maulik
Receiver Phon No:: 9089908987
Receiver Pincode:: 395007

Product Details

product type:: Gift
Product Length:: 15
Product Width :: 20
Product Height:: 30
Product Weight:: 1400

Price :: On Weight
PiD:: 30002
Employee_ID:: 20009

4. Track Order

Update

PID

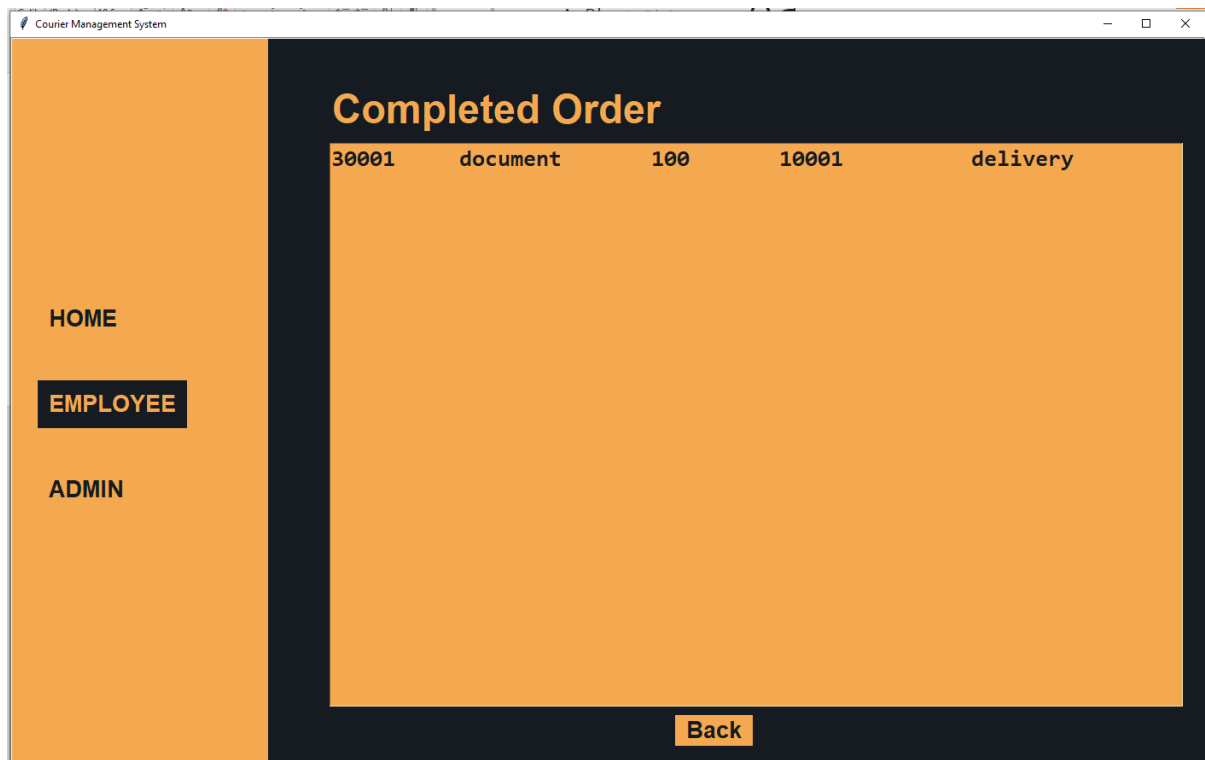

Status

Back Update

We haven't added much data so here pending order is Empty.

Like there is written employee can add status of courier like received at hub, Delivery, etc.

9. Completed Orders

Here is List of all couriers which are delivered by that employee.

10. Admin Login

Here Admin have to enter his\her
Name and Password

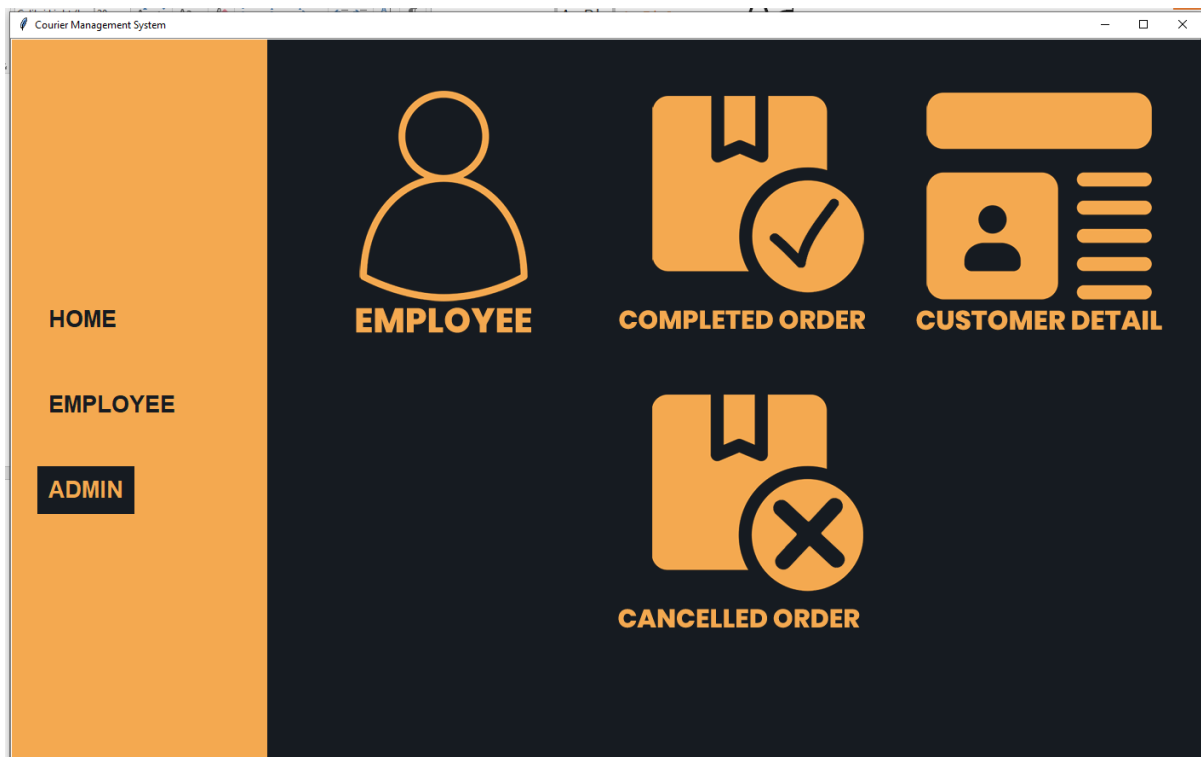

Ex.

Name: yagnik

Password: 1234

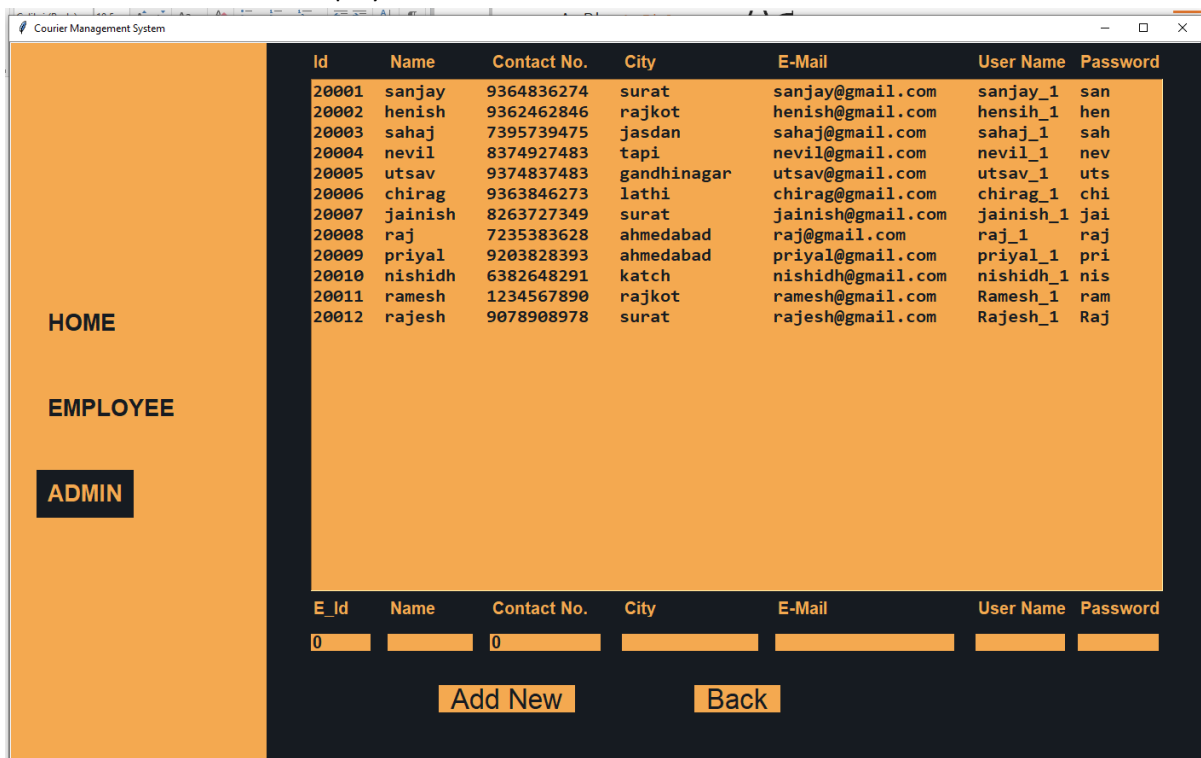

The login form is displayed on a dark blue background. It features the title 'Log in' in large orange font. Below the title, there are two labels in orange: 'Name' and 'Password'. The 'Name' label is followed by a white text input field containing the text 'yagnik'. The 'Password' label is followed by a white password input field containing five asterisks '*****'. Below these input fields is an orange button labeled 'Submit'.

11. Admin menu

12. Employee and Consumer

Here admin can add New employee and Consumer. He/she can also see all list of them.

13. Completed order and cancelled order

Completed Order
